OUR HISTORY

With the constitution of the Babenberg dynasty and family For the sovereign dynasty of Babenberg as a subject of international law, all the advantages of a legally binding possibility of international circumstances arise, which can be used in a wide variety of ways. All options are offered sustainably and with immediate effect.

The result is the declaration of the subject of international law with all rights and obligations on the basis of the Lex Vita Babenberg from the year 802 in accordance with the Renovatio Imperii Carolus et Henrici from the year 801. From that point on, the Carls Council serves as parliament the sovereign personality, constitutions and laws united by the federation. The declaration and diplomatic note are always available for inspection upon request.

In 2000 Robert-Andreas Stephan Babenberg founded the JRB GORTEI Agency Ltd in Great Britain and in 2019 the Babenberg Agency KG in Vienna was added. The cooperation between the two companies not only enables EU-wide economic synergy, also international procedures can be carried out in accordance with the law.

The Sovereign Babenberg Dynasty acts internationally on the basis of "private placement" and once full internal and external sovereignty has been achieved, converts participation certificates into bonds, government bonds or shares with a corresponding contractual agreement. Safety for all areas and those involved, is the top priority and is lived out of experience and holistic substance.
